

These two photo's were taken by JC Allen and Son in early 1960's. Cows include some of 22 daughters of Golden Aster 068, purchased from Harold Harms at Valentine, Nebraska. 11 yearling heifers were bought in each of two succeeding years...they were outstanding. Photo was taken from SR 43 facing East, at approximately where the Gas America station currently stands, approximately one-half mile north of I-656. The Super 8 Motel would now be located between cows and shed in background, with State Police Post to the left [North] of this picture.
